

AUTOMATIC PACKING EQUIPMENT SERIES

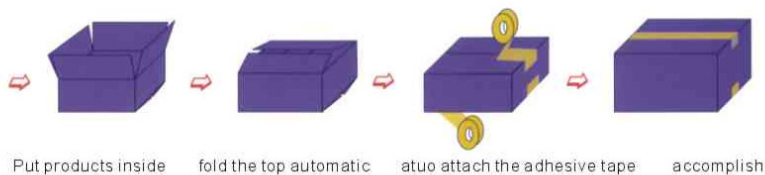

EXC-308/308A

Characteristic

- It's a single machine which can fold the top of cases automatically, applicable to be combined with flowing operation line unmanned.
- Designed by traditional method to feed the cartons by drive belt and then to seal it by adhesive tape.
- In the scope of applicable carton sizes, it can adjust the packing size automatically for all kinds of paper cases at the same time.
- All structure wares are exact and durable to guarantee the long term perfect performance.
- To ensure the attaching is better than manual work, faster and higher efficiency.

Function: flow chart

Model	EXC-308A single standard model Measurement: mm
Applicable carton sizes	L:200-550 W:120~500 H:110~500
Height of working table	Min: 570mm Max: 750 (Can be non standard for out of this using scope)
Attaching speed	360-420/ hour (can be faster if make nonstandard machine)
Machine dimension	L:1700 W:840 H:1450
Atmosphere source	Single or 3 phase 220/380V 50/60Hz(can be changed)
Power supply	6kg, f/cm2-100nl/min
Suitable adhesive tape	W: 48mm W:60~75mm L:1000yards (can be changed)
Weight	Net:280kg Gross weight:380kg(include wooden packing)
